

Learn And Design

Sample App Creation

App Name: AI ImageLayout Generator

1. Create an AI-powered collage layout generator with automatic box arrangement.
2. Allow users to upload up to 13 images and place them inside the layout.
3. Include options for mixed-size and uniform-size image boxes.
4. Add controls for aspect ratio, box count, border thickness, and colors.
5. Provide AI Shuffle, Undo, Redo, and image swap features.
6. Make the layout responsive with smooth animations and automatic scaling.
7. Enable downloading the final collage as a high-quality PNG image.
8. Design the interface with a clean, modern, professional UI that is simple and easy to use.
